

...almost like hail...

John MacCallum

...he had probably fallen there during the darkest hours of the night. The night of a great snowstorm, in which flakes as sharp as blades fell, almost like hail, driven by a furious south wind. Soaked by that snow, which had first melted and then frozen into shards of ice, the body had been discovered at the foot of a sheer drop, torn by the rocks it had struck on the way down.

—Umberto Eco, *The Name of the Rose*

Instrumentation:

Bass drum

Kick drum

2 wooden boxes (about 12" cubes)

2 toms tuned all the way down

6 bending gongs (4 stacked in pairs of 2) placed on a foam table

2 cymbals on a foam table

Vibraphone with motor and rubber mutes placed on these pitches:

5 metal pipes (such as lengths of chain-link fence posts, or pipes used for plumbing. They should have a complex timbre similar to brake drums.)

5 hardwood planks

5 temple blocks

Technical Requirements:

1 MacBook Pro running Max/MSP 4.6.3 or higher.

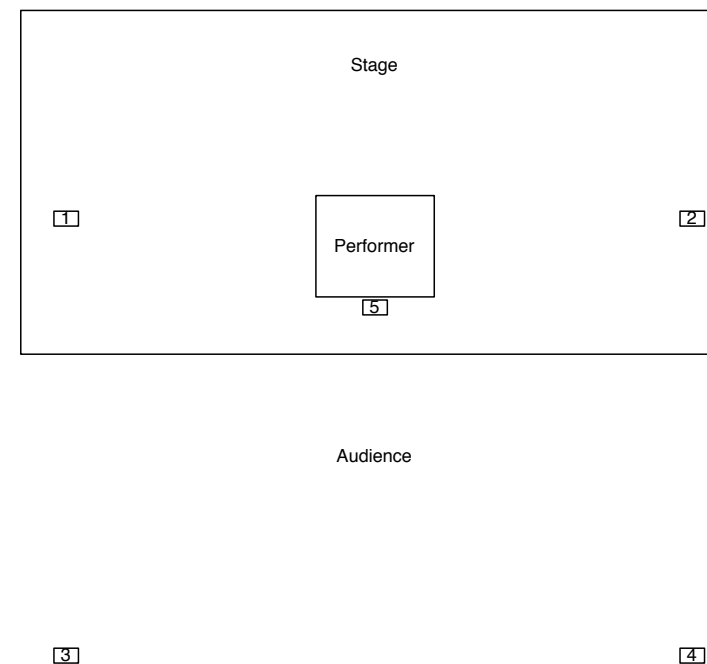

1 Digital audio interface such as a MOTU 828.

1 Footswitch for the performer to trigger the cues in the score (more than one may be needed depending on how the instruments are setup).

1 MIDI fader device such as a Behringer BCF2000

Speaker Configuration:

This piece requires 5 or more speakers. Two possible configurations can be seen below:

...almost like hail...

Detailed description: This system covers measures 261 to 264. It features two staves for the vibraphone. The upper staff begins with a treble clef and a key signature of one sharp (F#). The lower staff begins with a bass clef and a key signature of one flat (Bb). The music consists of sustained notes with dynamic markings: *p* (piano) in measures 261-262, *mp* (mezzo-piano) in measure 263, and *p* (piano) in measure 264. A *p subito* (piano subito) marking is present in the lower staff at the start of measure 264. Vertical dashed lines separate the measures.
